

Director, Emergency Management LEPC Report (11 June 07)

Grants: Submitted a CEDAP grant for hazard mitigation equipment. This equipment will accept information about targets that may be a hazard or create an incident in the future. It then spells out what actions need to be taken. This grant was for \$32,275.80 which will include a laptop, GPS system, the hardware and software for the mitigation program and training for 3 days on the system for up to 25 people.

Also submitted was a grant for the CCC with My hometown helper for \$5,000.00, if not accepted, the next grant period starts in Aug, 2007, and will be re-submitted. Your comments would not make it in on this go round because the grant was submitted on the very last day that they would accept submission of an application.

My department also has an application from 3 rivers, to be submitted for more equipment for the mobile unit.

Unassigned Fire Districts: My office is still in the process and within the next two weeks will have the petition ready to go. GSIT, Karen Brown made up an excellent map of the proposed new fire district for Virginia City and proposed annexation for Alder Fire Dept.

PDM: A meeting was set up for June 15th @ 10 O'clock for meeting with Julie Johnson and Wayne Redfield. Wayne or Judy will provide you with the details this night.

Incident: On Sunday evening @ 22:15, a truck pulling 2800 gallons of "hot" asphalt overturned on mile marker 13, South of Cameron. MVRFD, DOT, Highway Patrol, County Sheriff, and my department all responded. 2750 gallon spilled out of the ruptured pup trailer, but was contained by the magnificent effort from MVRFD and DOT. Good job. A report to DES was submitted by this office.

Budget: My budget has been submitted to the Commissioners office including the CCC budget. Details later.

Deputy Fire Warden: I was appointed by the commissioners as Deputy Fire Warden. Soon I will be conducting inspections of facilities such as Schools, Nursing homes and hospitals. If you have any suggestions, please contact me.

County Fair: Contacted fair manager and the LEPC booth will be right next to the Sheriffs booth. We need volunteers to man the booth.

4th of July: I have requested from state for them to bring down the Mobile unit to act as our ICP. Capt Steve Orr will be able to answer questions on this subject.
